PICE-UAE Joins COSPLE Christmas Celebrations in Abu Dhabi and Dubai

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) joined the COSPLE Christmas celebrations held in Abu Dhabi on December 6, 2025, and in Dubai on December 22, 2025, bringing the spirit of Christmas to Filipino civil engineering reviewees and the wider engineering community.

December 14, 2025 at Al Wathba, Abu Dhabi

PICE-UAE Takes Action Through Desert Clean-Up Drive

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) continued its commitment to environmental responsibility and community service through a Desert Clean-Up Drive held on December 14, 2025.

The initiative brought together PICE-UAE officers, members, volunteers, and supporters who dedicated their time and effort to help maintain the cleanliness and beauty of the UAE's desert environment.

ENGR. JOEPER F. FAMORCAN

MESSAGE FROM THE PRESIDENT

Dear PICE-UAE Family,

As we reach the final month of 2025, I would like to take this opportunity to express my heartfelt gratitude to every member, officer, committee, volunteer, partner, and supporter who contributed to another meaningful year for the Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE).

This year has been filled with opportunities to learn, connect, serve, and grow together. Through our technical seminars, professional development activities, community engagements, sports programs, social gatherings, and other initiatives, we have continued to demonstrate that PICE-UAE is more than a professional organization—it is a community built on friendship, excellence, service, and shared purpose.

December is also a time for reflection. As we look back on the challenges we faced and the milestones we achieved, let us appreciate the people who stood with us throughout the journey. Every contribution, whether big or small, has helped strengthen our chapter and create opportunities for our members.

As we celebrate the Christmas season, may we also remember the importance of family, faith, gratitude, and generosity. May this season bring peace and renewed inspiration to each of us and our loved ones.

As your Chapter President, I am truly honored to have served alongside such a dedicated and passionate team. Let us close 2025 with grateful hearts and welcome 2026 with renewed energy, stronger unity, and greater aspirations.

On behalf of PICE-UAE, I wish everyone a Merry Christmas and a prosperous, healthy, and successful New Year!

Mabuhay ang PICE-UAE!

Engr. Joeper F. Famorcan
PICE-UAE 2025 Chapter President

PICE-UAE Joins the Filipino Community in Celebrating Simbang Gabi

■ **Engr. Cedrick John Glean,**
PICE-UAE 2025 Sergeant-At-Arms

The participation of PICE-UAE also highlighted the importance of preserving Filipino traditions and passing them on to the next generation. In a multicultural environment such as the UAE, occasions like Simbang Gabi provide a meaningful space where Filipino heritage, spirituality, and community spirit can continue to flourish.

As the Christmas season approached, PICE-UAE was grateful to be part of these memorable celebrations in Abu Dhabi and Dubai. More than a religious tradition, Simbang Gabi reminded everyone that wherever Filipinos may be, the values of faith, unity, gratitude, and community continue to bring people together.

PICE-UAE looks forward to continuing its active engagement with the Filipino community and supporting activities that celebrate our shared culture, strengthen fellowship, and inspire a spirit of service and togetherness.

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) proudly joined the Filipino community in celebrating the cherished Filipino tradition of Simbang Gabi, bringing together faith, fellowship, and cultural heritage during the Christmas season.

PICE-UAE participated in the Simbang Gabi celebration in Abu Dhabi on December 21, 2025, followed by another meaningful gathering in Dubai on December 23, 2025. These celebrations provided an opportunity for Filipino professionals, families, friends, and community organizations to come together in prayer and thanksgiving as the Christmas season drew near.

Simbang Gabi is a treasured Filipino tradition consisting of a series of dawn or evening Masses leading up to Christmas. Beyond its religious significance, it serves as a powerful reminder of Filipino faith, family values, unity, and cultural identity—values that remain deeply rooted in the hearts of Filipinos even while living and working abroad.

Through its participation, PICE-UAE reaffirmed its commitment not only to professional excellence but also to strengthening relationships with the wider Filipino community in the United Arab Emirates. The gatherings allowed members and fellow Filipinos to reconnect, share meaningful moments, and celebrate the spirit of Christmas together.

PICE-UAE Strengthens Support for Future Civil Engineers Through COSPLE Abu Dhabi Visit

■ **Engr. Blesil D. Apduhan, PICE-UAE 2025 1st Vice President**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) continued its commitment to supporting Filipino civil engineering professionals and aspiring engineers through its visit to COSPLE Abu Dhabi on December 6, 2025, where the chapter extended its encouragement and support to civil engineering licensure examination reviewees.

The visit provided an opportunity for PICE-UAE officers and members to personally connect with the reviewees, recognize their dedication, and remind them that their journey toward becoming licensed civil engineers is supported by a community that believes in their potential. The chapter emphasized the importance of perseverance, discipline, preparation, and confidence as the reviewees continue their intensive examination preparation.

Beyond academic preparation, the visit served as a meaningful reminder that professional organizations such as PICE-UAE play an important role in building connections and providing encouragement to future members of the engineering profession. The interaction also allowed the chapter to strengthen its relationship with the review community and encourage aspiring engineers to remain engaged with the professional engineering community.

PICE-UAE recognizes that preparing for the civil engineering licensure examination requires countless hours of study, sacrifice, and determination. Every review session brings the candidates one step closer to achieving their professional goals and contributing their knowledge and skills to the engineering industry.

Through initiatives such as this visit, PICE-UAE remains committed to empowering future civil engineers, promoting professional development, and fostering a strong Filipino engineering community in the UAE.

PICE-UAE extends its best wishes to all COSPLE Abu Dhabi reviewees. May their hard work, perseverance, and dedication lead them toward success in the licensure examination and a fulfilling career in civil engineering.

Padayon, future Civil Engineers!

PICE-UAE Joins Bayanihan Council Paskuhan Day 2025

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) proudly joined the Bayanihan Council Paskuhan Day 2025 held on December 6, 2025, as part of the Filipino community's celebration of the Christmas season in the United Arab Emirates.

The event brought together various Filipino organizations, professionals, families, and community leaders in an atmosphere of friendship, unity, and celebration.

■ Engr. Kris Gabrielle M. Bautista, PICE-UAE 2025 COPI Director

For PICE-UAE, the gathering was another meaningful opportunity to strengthen its connection with the wider Filipino community and demonstrate its continued commitment to community engagement and fellowship.

Paskuhan Day provided a wonderful setting for everyone to celebrate the true spirit of Christmas, sharing joy, gratitude, generosity, and togetherness. It also highlighted the Filipino value of bayanihan, where individuals and organizations come together to support one another and build a stronger and more connected community.

Through its participation, PICE-UAE reaffirmed that its role extends beyond professional development. As an organization of Filipino civil engineers in the UAE, the chapter recognizes the importance of actively participating in community activities that promote camaraderie, cultural appreciation, and meaningful relationships among Filipinos.

The celebration was filled with memorable moments, warm conversations, and opportunities to reconnect with fellow Filipino organizations and community members. These experiences further strengthened the spirit of cooperation and friendship that continues to unite Filipinos despite being away from home.

PICE-UAE expresses its appreciation to the Bayanihan Council for the opportunity to be part of this meaningful Christmas celebration. The chapter looks forward to continuing its collaboration with Filipino community organizations and contributing to activities that promote unity, service, and fellowship.

As the Christmas season reminds us, the strength of the Filipino community lies in our willingness to stand together, share our blessings, and embody the spirit of bayanihan wherever we are.

Mabuhay ang Filipino Community in the UAE!

PICE-UAE Celebrates a Meaningful Year-End Party 2025

■ **Engr. Jason S. Lee, PICE-UAE 2025 2nd Vice President**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) successfully celebrated its Year-End Party on December 6, 2025, bringing together officers, members, families, and friends for an evening of celebration, gratitude, and fellowship.

The gathering served as a wonderful opportunity for the PICE-UAE family to pause and reflect on the accomplishments, challenges, and memorable experiences shared throughout 2025. It was a celebration not only of the chapter's activities and achievements but, more importantly, of the people whose dedication, cooperation, and support made each initiative possible.

The evening was filled with laughter, meaningful conversations, entertainment, and memorable moments among fellow civil engineers and members of the Filipino engineering community. It provided everyone with an opportunity to step away from their professional responsibilities, reconnect with colleagues and friends, and simply enjoy the company of the PICE-UAE family.

The Year-End Party also highlighted the importance of camaraderie within the organization. Throughout the year, PICE-UAE members worked together in technical programs, professional development activities, sports events, community initiatives, and other chapter activities. The celebration served as a reminder that the strength of the organization comes from the unity and active participation of its members.

As 2025 came to a close, PICE-UAE expressed its sincere appreciation to everyone who contributed to the chapter's journey throughout the year. Every volunteer, participant, partner, and supporter played an important role in making the year meaningful and successful.

In Photos: PICE-UAE Members enjoying the Year End Celebration 2025

In Photos: PICE-UAE Members enjoying the Year End Celebration 2025

With grateful hearts, PICE-UAE looks forward to welcoming 2026 with renewed energy, stronger unity, and greater opportunities to serve and grow together.

The Year-End Party was more than a celebration, it was a reflection of the friendships, achievements, and shared purpose that make PICE-UAE a strong and vibrant professional community.

Cheers to another year of excellence, service, and bayanihan!

In Photos: PICE National 88th Anniversary Poster

PICE-UAE Congratulates PICE National on Its 88th Anniversary

■ **Engr. Verena D. Guades, PICE-UAE 2025 COED
Committee Member**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) extends its warmest congratulations and heartfelt greetings to the PICE National Office, its officers, leaders, members, and the entire Filipino civil engineering community on the celebration of the 88th Anniversary of the Philippine Institute of Civil Engineers on December 11, 2025.

For 88 years, PICE has stood as a strong pillar of the Philippine civil engineering profession, continuously promoting excellence, professionalism, competence, and ethical practice among Filipino civil engineers. From its humble beginnings, the organization has grown into a respected professional community that continues to shape the careers of engineers and contribute to the development of the nation and communities around the world.

As PICE-UAE, we are honored to be part of this long and meaningful journey. Being one of the overseas chapters allows us to carry the mission and values of PICE beyond Philippine borders while providing Filipino civil engineers in the United Arab Emirates with opportunities for professional growth, fellowship, leadership, and service.

This anniversary is not only a celebration of PICE's remarkable history but also a reminder of the responsibility we share in preparing the next generation of civil engineers. As the profession continues to evolve with new technologies, sustainability challenges, and changing global demands, PICE remains an important platform for collaboration, knowledge-sharing, and professional development.

PICE-UAE expresses its appreciation to PICE National for its continued guidance, support, and leadership. We look forward to strengthening our partnership and contributing even more meaningfully to the advancement of the organization and the civil engineering profession.

Happy 88th Anniversary, PICE!

In Photos: PICE-UAE Members joins the ADNOC Run 2025

PICE-UAE Takes Part in ADNOC Run 2025

■ **Engr. Ivan Paulo M. Hernandez, PICE-UAE 2025 COED Committee Member**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) proudly participated in the ADNOC Run 2025 on December 13, 2025, bringing together members and supporters for a day dedicated to fitness, wellness, camaraderie, and community spirit.

The event provided PICE-UAE members with an opportunity to step outside their usual professional environment and come together through an activity that promotes a healthy and active lifestyle. More than a running event, the ADNOC Run created a platform where participants from different communities and backgrounds could connect, challenge themselves, and enjoy the excitement of being part of a large-scale sporting event.

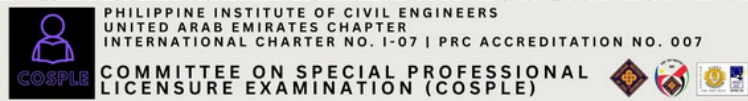

PICE-UAE recognizes that maintaining a healthy lifestyle is an important part of achieving balance in both professional and personal life. As civil engineers, our profession demands dedication, focus, and resilience, and activities such as running provide an excellent opportunity to refresh, recharge, and build stronger connections with colleagues and friends.

The participation also reflected the chapter's continuing efforts to promote health, wellness, teamwork, and fellowship among its members. Whether running competitively, completing the course at their own pace, or simply supporting fellow participants, the PICE-UAE team demonstrated the spirit of encouragement and camaraderie that defines the organization.

The event was filled with energy, enthusiasm, and memorable moments as participants challenged themselves while enjoying the atmosphere of the run. It was a meaningful reminder that success is not only measured by professional achievements but also by how we take care of ourselves and build meaningful relationships with others.

PICE-UAE congratulates all members and participants who took part in the ADNOC Run 2025 and looks forward to joining more activities that promote a healthier, stronger, and more connected PICE-UAE community.

Run together. Stay healthy. Build stronger connections!

In Photos: PICE-UAE Board of Directors celebrated the Preliminary Examination of COSPLE Abu Dhabi and the top takers

PICE-UAE Celebrates COSPLE Abu Dhabi Preliminary Examination

■ **Engr. Kristine Ghea P. Villanueva, PICE-UAE 2025 COME Committee Member**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) proudly joined in celebrating the Preliminary Examination of COSPLE Abu Dhabi, recognizing the dedication, perseverance, and commitment of Filipino civil engineering reviewees as they continue their journey toward professional licensure.

The examination marked an important milestone for the aspiring civil engineers who have invested countless hours in reviewing, studying, and preparing for one of the most significant examinations of their professional careers. PICE-UAE recognizes that the road toward becoming a licensed civil engineer requires not only technical knowledge but also discipline, determination, patience, and confidence.

The chapter's participation in the preliminary examination celebration provided an opportunity to show support and encouragement to the reviewees and remind them that they are part of a professional community that believes in their capabilities and future contributions to the engineering profession.

The occasion also strengthened the connection between PICE-UAE and the COSPLE Abu Dhabi review community. Through initiatives that support aspiring engineers, PICE-UAE continues to promote professional development and encourage future civil engineers to become actively involved in the professional organization.

Beyond the examination itself, the celebration highlighted the importance of friendship, mentorship, and community support throughout the licensure journey. Every reviewee has a unique story of sacrifice and determination, and reaching the preliminary examination represents another step closer to achieving their dream of becoming licensed professionals.

PICE-UAE congratulates all COSPLE Abu Dhabi reviewees for reaching this important milestone. May this preliminary examination serve as motivation to continue working hard, learning, and believing in yourselves as you move forward with your preparation.

The chapter remains committed to supporting aspiring Filipino civil engineers and looks forward to celebrating their success in the future.

Keep pushing, future Civil Engineers! Your hard work today is building the foundation for your professional tomorrow. Padayon, COSPLE Abu Dhabi!

PICE-UAE Strengthens Teamwork Through Desert Camping Team Building

■ **Engr. Nelcelyn B. Simbi, PICE-UAE**
2025-26 AUH COSPLE Chairwoman

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) successfully held its Team Building Activity for Officers and Committee Members on December 13, 2026, in Al Wathba, bringing together the chapter's leaders and volunteers for a memorable day of fellowship, teamwork, and camaraderie.

The desert camping activity provided a refreshing opportunity for PICE-UAE officers and committee members to step away from their usual responsibilities and spend meaningful time together in a relaxed outdoor setting. Beyond the activities and enjoyment, the gathering emphasized the importance of communication, cooperation, trust, and teamwork in achieving the chapter's goals.

Throughout the year, PICE-UAE officers and committee members work together in organizing professional programs, community initiatives, sports activities, social events, and other chapter projects. The team-building activity served as an opportunity to strengthen the relationships behind these efforts and recognize the dedication of the people who continuously volunteer their time and talents for the organization.

The beautiful desert surroundings of Al Wathba created a perfect setting for team activities, conversations, shared meals, laughter, and memorable moments. The experience allowed members to get to know one another beyond their organizational roles while building stronger personal and professional connections.

PICE-UAE believes that a strong organization begins with a united team. By fostering a culture of friendship, mutual respect, and collaboration, the chapter becomes better equipped to serve its members and the wider Filipino engineering community.

The activity concluded with renewed energy and a stronger sense of unity among the officers and committee members. It was a meaningful reminder that while individual contributions are valuable, greater achievements become possible when everyone works together toward a shared purpose.

PICE-UAE extends its appreciation to everyone who participated and contributed to making the activity successful.

Stronger Team. Stronger Chapter. Stronger PICE-UAE!

In Photos: PICE-UAE Officers bonding and team building activity in the desert camping

In Photos: PICE-UAE Celebrate with COSPLE Dubai for the preliminary exam results of COSPLE Reviewees

PICE-UAE Celebrates COSPLE Dubai Preliminary Examination

■ **Engr. Bernie N. Favorito, PICE-UAE 2019 Chapter President**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) proudly joined in celebrating the Preliminary Examination of COSPLE Dubai, recognizing the dedication, perseverance, and hard work of Filipino civil engineering reviewees as they continue their journey toward becoming licensed professionals.

The preliminary examination marked an important milestone for the aspiring civil engineers who have dedicated countless hours to studying, attending review sessions, and preparing themselves for the challenges of the licensure examination. For every reviewee, reaching this stage represents not only academic preparation but also months of sacrifice, discipline, and determination.

PICE-UAE recognizes the importance of providing encouragement and support to future civil engineers throughout their licensure journey. The chapter's participation in the celebration served as a reminder to the reviewees that they are not alone in their pursuit of professional success. They have a community of fellow engineers and professionals who are ready to encourage, guide, and celebrate their achievements along the way.

The occasion also strengthened the connection between PICE-UAE and the COSPLE Dubai review community. Through continued engagement with reviewees, the chapter aims to promote professional development, fellowship, and greater involvement in the engineering community.

In Photos: PICE-UAE Members during the desert clean up drive

Throughout the clean-up drive, participants worked together to collect and properly dispose of waste found in the designated area. The activity demonstrated the Filipino spirit of bayanihan, as volunteers united toward a common purpose and showed that even simple individual actions can create a meaningful collective impact.

The initiative also provided an opportunity for members to strengthen their relationships while contributing to a worthwhile cause. Working side by side outside the usual professional environment fostered camaraderie, teamwork, and a deeper appreciation for environmental responsibility.

PICE-UAE extends its appreciation to all officers, members, volunteers, and partners who participated in the activity. Their time, energy, and commitment made the clean-up drive a meaningful contribution to the community and environment.

Through activities like this, PICE-UAE hopes to inspire more people to practice responsible waste management and actively participate in environmental initiatives.

Together, let us continue to build not only better communities, but also a cleaner and more sustainable environment for generations to come.

PICE-UAE Takes Action Through Desert Clean-Up Drive

■ **Engr. Queenie Charlene D. Caibog, PICE-UAE 2025 COME Committee Member**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) continued its commitment to environmental responsibility and community service through a Desert Clean-Up Drive held on December 14, 2025.

The initiative brought together PICE-UAE officers, members, volunteers, and supporters who dedicated their time and effort to help maintain the cleanliness and beauty of the UAE's desert environment. More than simply collecting waste, the activity served as a meaningful reminder of the responsibility that everyone shares in protecting the environment and preserving natural spaces for future generations.

As civil engineers, PICE-UAE members recognize that sustainable development goes beyond the design and construction of infrastructure. It also involves protecting the environment, promoting responsible practices, and encouraging communities to become active stewards of the places where they live and work.

PICE-UAE Joins COSPLE Christmas Celebrations in Abu Dhabi and Dubai

■ **Engr. Joeper F. Famorcan, PICE-UAE 2025 Chapter President**

The Philippine Institute of Civil Engineers – United Arab Emirates Chapter (PICE-UAE) joined the COSPLE Christmas celebrations held in Abu Dhabi on December 6, 2025, and in Dubai on December 22, 2025, bringing the spirit of Christmas to Filipino civil engineering reviewees and the wider engineering community.

The Christmas gatherings provided a meaningful opportunity for PICE-UAE officers, members, and COSPLE reviewees to come together, celebrate the season, and appreciate the friendships and connections built throughout the year. Beyond the festive atmosphere, the celebrations highlighted the importance of community and encouragement, especially for aspiring civil engineers who continue to work hard toward achieving their professional goals.

The Abu Dhabi and Dubai celebrations were filled with fellowship, laughter, and memorable moments. The gatherings offered reviewees a chance to take a short break from their demanding preparation while connecting with fellow aspiring engineers and professionals. PICE-UAE was honored to be part of these occasions and to share the message of encouragement and support with the future members of the civil engineering profession.

Christmas also served as a reminder of the Filipino values of faith, family, friendship, gratitude, and bayanihan. These values remain important in strengthening the Filipino engineering community and creating an environment where aspiring professionals feel supported throughout their journey.

PICE-UAE extends its appreciation to COSPLE Abu Dhabi and COSPLE Dubai for the opportunity to participate in their Christmas celebrations and for their continued efforts in supporting civil engineering reviewees in the UAE.

As the year came to a close, the celebrations reminded everyone that professional journeys are made more meaningful when shared with a supportive community.

PICE-UAE wishes all COSPLE reviewees continued success in their preparation and future careers.

Merry Christmas, future Civil Engineers! May your dreams become achievements through perseverance, faith, and determination.

Marlyn Castro

Founder & CEO, Pinas Group of Companies

With six companies under her helm, Founder and CEO Ms. Marlyn Castro is on a clear path of turning her vision into reality: building a business empire that thrives on trust, innovation, and a deep understanding of customer needs. The group's rapid and strategic expansion across different industries—logistics, beauty and wellness, travel, gold trading, floristry, and cleaning services—demonstrates its resilience and adaptability in an ever-changing market. Pinas Group's success story is a testament to the power of vision and leadership. The company's drive to provide diverse quality products and services combined with the founder's philosophy of rewarding trust and hard work, positions it as a formidable force in the business world, both regionally and beyond.

PICE-UAE would like to inform you that our organization holds a Privilege Card for Ahalia Hospital in Abu Dhabi.

This card offers the following:

1. Free Consultation
2. 20% discount in prescribed medication/laboratory test

Moreover, this is not only for the members, but also for other people who are greatly in need of freediscounted medical services.

You can reach Ms. Maricel Angeles of Al Ahalia Hamdan thru the contact information in the card, or any BODs on how to avail.

Kindly disseminate the information to everybody.

We Like To Move It

PICE-UAE would like to inform you that our organization holds Membership Discounts and Offers in all LBC branches in United Arab Emirates.
